PROFILE

Hands-on production experience across Python/FastAPI and Node.js/Express, working with both SQL (PostgreSQL, MySQL) and NoSQL (MongoDB) databases. Built and maintained a production business platform end-to-end: database schema, REST APIs, authentication, async background job scheduling, and third-party integrations, containerized with Docker and deployed on AWS EC2. Comfortable owning backend architecture and articulating integration flows in cross-functional Agile teams.

WORK EXPERIENCE

Full-Stack Developer 2025 – 2026
PH.Digital, Tel Aviv

- Designed and maintained end-to-end web applications with **React** (frontend) and **Python/FastAPI** (backend), owning the full stack from database schema to API layer.
- Built and maintained a production business platform with **PostgreSQL**, implementing complex business logic, secure **JWT** authentication, and async background job scheduling.
- Integrated third-party **REST APIs** and external business systems, building automated workflows for document generation, client communication, and financial reporting processes.
- Wrote unit and integration tests (**pytest**) as part of the development workflow.
- Delivered features consistently in **Agile** sprints (stand-ups, sprint planning, retrospectives), collaborating with frontend and product teams.

Sales Team Leader 2019 – 2025
Pcom Solutions, Tel Aviv

- Led a team of 3–4 sales representatives; managed pipeline, KPIs, and enterprise client relationships.
- Grew team revenue **30% YoY**.

EDUCATION

Full-Stack Development – John Bryce, Tel Aviv
990 hours, 2024 – 2025

- Program covering end-to-end web development with **Python** (Django, FastAPI, Flask), **React**, and **Node.js**.
- Built full-stack projects with **GenAI** integrations (OpenAI API, LLM pipelines); practiced Clean Code and SOLID principles.
- Gained hands-on experience with DevOps workflows: **Git**, **GitHub**, **Docker**, **AWS EC2** deployment.

SKILLS

Backend	Python (FastAPI, Flask), Node.js (Express), RESTful APIs
Databases	PostgreSQL, MySQL, MongoDB, SQLAlchemy, SQL
Tools and Cloud	Git, GitHub, Docker, AWS EC2, Postman
Frontend	React, TypeScript, JavaScript
