PROFILE

Backend-oriented Full-Stack Developer with hands-on experience building production APIs, database systems, and AI-integrated workflows using Python and FastAPI. Experienced in designing end-to-end systems from database schema to API layer, integrating LLM provider APIs (OpenAI, Anthropic), and delivering features in collaborative, client-facing environments. Strong product sense shaped by years of enterprise client work, now applied to backend systems and GenAI solutions.

WORK EXPERIENCE

Full-Stack Developer 2025 – 2026
PH.Digital, Tel Aviv

- Designed and built production backend systems with **Python/FastAPI** and **PostgreSQL**: REST APIs, JWT authentication, async background job scheduling, and complex business logic.
- Integrated third-party REST APIs and external services, building automated workflows for document generation, client communication, and financial reporting.
- Owned the full stack from database schema to API layer, collaborating with product and frontend teams in **Agile** sprints (stand-ups, sprint planning, retrospectives).
- Delivered features on a live business platform used by real clients, balancing technical delivery with business context and stakeholder needs.

Sales Team Leader 2019 – 2025
Pcom Solutions, Tel Aviv

- Led a team of 3–4 representatives; managed pipeline, KPIs, and enterprise client relationships across multiple sectors.
- Grew team revenue **30% YoY**; translated client feedback directly into delivery priorities.

EDUCATION

Full-Stack Development — John Bryce, Tel Aviv
990 hours, 2024 – 2025

- Intensive program covering **Python** (FastAPI, Django, Flask), **React**, Node.js, databases, and DevOps workflows.
- Built full-stack projects with **GenAI** integrations: **OpenAI API**, **Anthropic API**, LLM pipelines, and prompt engineering patterns.
- Hands-on with **Docker**, **AWS EC2** deployment, Git, and Clean Code / SOLID principles.
