PROFILE

Full-Stack Developer with hands-on experience building internal business platforms, automating workflows, and integrating third-party systems. Comfortable across the full stack: Python backends, SQL databases, REST APIs, and scripting. Prior stakeholder-facing background sharpens requirement gathering and translating operational needs into practical, working tools.

WORK EXPERIENCE

Full-Stack Developer 2025 – 2026
PH.Digital, Tel Aviv

- Built and maintained an internal business platform on Python/FastAPI and PostgreSQL, implementing complex business logic, JWT authentication, and async background job scheduling.
- Developed automated workflow scripts for document generation, client communication pipelines, and financial reporting, integrating multiple third-party REST APIs.
- Authored SQL queries and data models supporting reporting and operational processes across the business.
- Delivered features iteratively in Agile sprints, collaborating directly with stakeholders to gather requirements and ship practical solutions on schedule.

Sales Team Leader 2019 – 2025
Pcom Solutions, Tel Aviv

- Led a team of 3–4 representatives; managed pipeline, KPIs, and enterprise client relationships.
- Grew team revenue 30% YoY; translated operational pain points into process improvements.

EDUCATION

Full-Stack Development — John Bryce, Tel Aviv
990 hours, 2024 – 2025

- Comprehensive program: Python (FastAPI, Flask, Django), React, Node.js, SQL, and DevOps practices.
- Built and deployed full-stack applications; practiced Git workflows, Docker, and AWS EC2.
- Applied AI-assisted development tools and integrated OpenAI/Anthropic APIs in project work.

SKILLS

Backend & Scripting	Python (FastAPI, Flask), Node.js (Express), RESTful APIs
Databases & SQL	PostgreSQL, MySQL, SQLAlchemy, SQL queries
Tools & Cloud	Git, GitHub, Docker, Postman, AWS EC2
Frontend	React, TypeScript, JavaScript
Generative AI	OpenAI API, Anthropic API, Prompt Engineering, LLM integration
