PROFILE

Full-Stack Developer with hands-on professional experience in Python/FastAPI, Node.js, PostgreSQL, and REST API integrations. Built end-to-end business platforms covering custom APIs, ETL-style data workflows, and client-specific automations. Prior client-facing experience translates directly into product sense and business context. Comfortable performing root-cause analysis and delivering fixes in production environments.

WORK EXPERIENCE

Full-Stack Developer 2025 – Present
PH.Digital, Tel Aviv

- Built and maintained custom APIs and backend services using **Python/FastAPI** and **Node.js**, integrating external REST APIs and automating client-specific business workflows.
- Worked with **PostgreSQL** and **MySQL** to design queries, model business data, and support reporting and data transformation workflows.
- Built automated data workflows that extracted, transformed, and validated structured business data into reporting outputs such as **PDF** and **Excel**.
- Performed root-cause analysis on production workflow and integration issues, debugging API behavior, data inconsistencies, and backend logic.
- Delivered features in **Agile** sprints, collaborating across frontend and product teams; used **Git** and **Postman** throughout.

Sales Team Leader 2019 – 2025
Pcom Solutions, Tel Aviv

- Led a team of 3–4 sales representatives; managed pipeline, KPIs, and enterprise client relationships.
- Grew team revenue **30% YoY**.

EDUCATION

Full-Stack Development — John Bryce, Tel Aviv
990 hours, 2024 – 2025

- Program covering Python (FastAPI, Django, Flask), Node.js, React, and relational/non-relational databases (**PostgreSQL**, **MySQL**, **MongoDB**).
- Built full-stack projects with API integrations; applied Clean Code and SOLID principles.
- DevOps: **Git**, **Docker**, **AWS EC2**.
