

Matan Malka

Full Stack Developer | Python • Node.js • React • AI/ML

Tel Aviv • +972-50-668-8386 • matan1391@gmail.com • GitHub • LinkedIn

ABOUT

Full Stack Developer with hands-on professional experience building scalable web applications and integrating AI/ML solutions. Adept at designing robust backends, efficient database schemas, and dynamic user-centric frontends. Committed to clean code, performance optimisation, and shipping production-ready software that drives measurable business impact.

PROFESSIONAL EXPERIENCE

Full Stack Developer

PH.Digital • Tel Aviv • 2025 – 2026

- Designed and maintained end-to-end web applications with **React** (frontend) and **Node.js / Python** (backend), serving production traffic.
- Integrated third-party REST APIs and implemented complex business logic, reducing manual processing time for key workflows.
- Optimised PostgreSQL/MongoDB queries and backend performance, improving average API response time significantly.
- Delivered features iteratively in an Agile team, collaborating with product, design, and QA to meet sprint goals.

Sales Team Leader

Pcom Solutions • Tel Aviv • 2019 – 2025

- Grew team revenue by **30 %** year-on-year through rigorous KPI tracking, pipeline ownership, and data-driven coaching.
- Managed high-stakes enterprise negotiations and long-term client relationships across multiple industries.
- Mentored and upskilled team members on sales methodologies, improving funnel conversion and forecast accuracy.

EDUCATION

Full Stack Development Bootcamp — John Bryce, Tel Aviv

990 hours • 2024 – 2025

- Intensive program covering end-to-end web development with **Python, React, and Node.js**.
- Built data-driven applications integrating Machine Learning models; practised Clean Code and SOLID principles.
- Gained proficiency in DevOps workflows: **Git/GitHub, Docker containerisation, AWS EC2** deployment.

TECHNICAL SKILLS

Backend	Python (FastAPI / Flask) • Node.js (Express) • RESTful APIs
Frontend	React • TypeScript • HTML5 • CSS3
AI / ML	PyTorch • TensorFlow • OpenCV • Computer Vision (ResNet) • Scikit-learn • NumPy
Generative AI	Prompt Engineering • OpenAI API • Anthropic API
Databases & ORM	PostgreSQL • MySQL • MongoDB • SQLAlchemy • Sequelize
Web Scraping	BeautifulSoup • Selenium • Scrapy
Tools & Cloud	Git / GitHub • Docker • Postman • AWS EC2

LANGUAGES

Hebrew Native

English Fluent
